

## LIST OF TABLES

Table	Title	Page
2.1	Different time-frequency distributions belonging to the Cohen's class	14
5.1	Band-rejection algorithm for generating random vectors of a specified pdf	88
5.2	Generation of RVs for a specified mixture of normal pdfs	89
5.3	EM algorithm	90
5.4	Incremental-based EM algorithm	97
5.5	A comparison of the estimated components from the EM and Incremental EM algorithms	101
6.1	Illustration of the algorithm for the test sequence $x$	123
6.2	Comparison of various approaches for computing DFT of serial data	124
6.3	Comparison of various approaches for computing WVD	133
